Would you recommend this course to other parents and carers?

Do you feel better able to support your young person after attending this session?

The work you are doing is VITALLY important. I have been feeling so alone and isolated as a single parent. This has made me feel supported in just an hour and a half

The safety planning tips were especially useful, thank you.

So informative and friendly jargon free information. Such a great idea. Thank you all

Excellent to hear this. I am in the USA & would like to share your upcoming sessions with parents of teens I work with here as I find the information just as relevant.

This has been the best online service I have ever been on...thank you. worth every minute of our time and yours.

Thank you. Fantastic session. I hope I can do the other sessions I missed at a later date. x

Very close to home but made so much sense

Thank you as a children's nurse and a mother of a teenager I have found it really useful

This time goes so fast, the content has had me in tears each week as so powerful

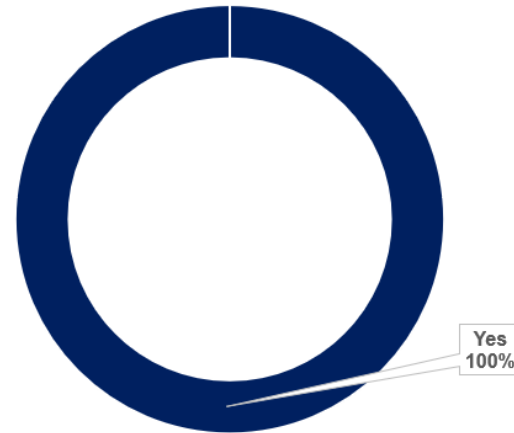

Really informative session! My son is 13 in a few weeks and teenage years feel very daunting but at least this helps to give some tips.

Would you recommend this course to other parents and carers?

Do you feel better able to support your young person after attending these sessions?

Again, another really good session. I wasn't sure whether to join as I have done the teen talks and my youngest is 12 but thought it might help... and it has already.

As a foster carer, I really appreciate your course and believe it would also be great for prospective adopters. Thank you for all the safety warnings that help keep participants safe too.

I thought they were very tough topics and the session and links will be invaluable to help me to discuss them with my daughter who is in Year 6 and also my son who is in Year 4.

Thank you so much for tonight's zoom call I have already learnt so much and can't wait for next week's

Thank you so much for a wonderful and informative session. I also appreciate the time you all took to put it together and am looking forward to next week

Thank you for yesterday evening's talk. It was fabulous and so helpful. With a preteen son who's starts year 9 in September in a new senior school, these talks are most useful as well as for my volunteering roles.

Thanks to all of you that have worked so hard to put these together for us. The Tween and Teen years were so under discussed in the past when I and my mum were growing up, it is a massive help to be able to have information that is up to date with current concerns too.

Would you recommend this course to others?

Do you feel better able to support your young person after this session?

Thank you for this - i could have listened to this for so much longer. very very informative - difficult to listen to and has helped me feel much more empowered to go out there and try and make a difference.

Hard hitting and informative. It's made me look at this through a young person's view point.

Thank you so much it is so shocking that this is the reality now

Completely appropriate and informative Very passionate...thank you soo much

Just extremely informative as a professional and a parent. Thank you so much

Thank you so much for this session. It's made me feel sick but has given me a lot of information to discuss with the parents I work with, most of whom say the classic 'oh no my child doesn't look at porn.' I'll be registering on your website

Very good Subject and we need to talk more about it and this provided me with the information to share 📱 let's keep talking

Let's Talk recordings.....increasing accessibility
